

What does Respect Life Mean to Me? - 5th grade Winner - Tyler Keil

Respecting life to me means to respect the gift of life that God gave us. One example is when people do abortions because the people don't want Gods gift of children. Another example is suicide because people are disrespectful to their own lives by killing themselves.

One very bad thing is how many people are murdered each day because we don't respect the other peoples lives and we stupidly kill them. Another bad thing is at schools people bully each other and treat each other like dirt. Once I got into something and my brother and cousin came and helped me and I thought it was really generous of them.

Well, that pretty much wraps it up. I don't care if I win that \$25, I just liked writing about this. The End.
