

What Respect Life Means to Me - 6<sup>th</sup> grade winner - Katie Robey

Respect Life from God -

I want to respect life because we are all a special gift from God. You should be glad you're alive and healthy. But some people think it's okay to hurt and harm people like abortion. Sometimes people hold sales and meetings for abortion which is wrong. You're harming innocent children. It's the start of new life when a baby is born. You should respect that.

Another is yourself. You don't think about it much, but taking drugs and giving things to your body is disrespecting the life that God gave you. And when you bully someone the person who gets bullied feels let down and worthless. And nobody likes to feel that feeling. But if you see bullying happening, tell the bully to stop.

I want to make a change in life so God can see all of his wonderful creation on Earth.
